

CROSS YOUR BORDERS, Feb 2014

The brand new ESN exchange program from the Corderius College, called 'Cross Your Borders', was a great success. Five different nationalities and a very awesome journalism-project about issues in development countries, ensured a wonderful week. We have had lots of fun together, and learned new things about this problems in third world countries. We have also gained new experiences on the field of journalism. Furthermore, every evening there was a nice night-program. Which contained bowling, pooling, eating pancakes and a lot more. Of course, the trip to Amsterdam was included in this week, which was a big success to everyone. Altogether an instructive and unforgettable week!
